

## Mountain Flying

Learn from a Master Instructor who lives and flies at a mountain airport. This is real world important information that every pilot should can benefit from. Mountain Flying is very different from flying elsewhere and most people killed have never taken any training. Every pilot and CFI will be safer if they take this course.

**Directions:** This is a free class included with admission to Airventure. For info please visit [www.EAA.org](http://www.EAA.org)

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
